WORKSHOP SUMMARY

This workshop has been specifically designed for engineering managers and consulting engineers, to assist them in running a more efficient and effective team or business.

After attending this course, you should have an understanding of:

- **Tax deductions** prescribed for the engineering profession.
- The pros and cons of various **trading structures**.
- Techniques and strategies for achieving **goals and objectives**.
- Insurance as a means of **risk mitigation**.
- **Policy and procedure** development to ensure quality control.
- How to read and understand **financial statements**.
- Setting employee **charge rates** to ensure a return on investment.

If you provide consulting services or have aspirations for senior management, then this is a must attend event.
